balance  
between  
elegance and  
performance

ICON MARINE SRL

[www.iconmarine.it](http://www.iconmarine.it)

FOR US, DESIGNING AN INFLATABLE BOAT IS NOT ONLY HOW TO BUILD IT, BUT ALSO HOW TO LIVE IT!

---

Passion and experience are the basis of the prestige of ICON MARINE, a leading company in the inflatable boat sector since 1970. High quality materials, attention to detail and constantly looking for new shapes, new materials and new lines.

40 YEARS OF EXPERIENCE!

The ICON MARINE Company was born from the tradition and experience of a family of nautical enthusiasts who have been "navigating" in this sector for 40 years!  
We have been a point of reference for pleasure boating since 1970 and we continue to work with the same enthusiasm to be able to meet all the expectations of our customers.

## A HIGH LEVEL OF ATTENTION TO DETAIL

---

Today the ICON MARINE Company has as its main activity the production of handcrafted inflatable boats with high quality materials and equipped with the most modern technology.

The success of our products and company growth are the result of a precise strategy that leads us to favor quality over quantity!

We work to find the best solutions by investing in research and development and the result leads us to be present on the main European markets.

**HULL LENGTH (LH) m 8,45**

**HULL WIDTH (BH) m 3,06**

ICON 40GT

**HULL LENGTH (LH) m 12,50**

# OUR SERVICES

## RIB REFITTING

Our refitting intervention on boats is both from an aesthetic and a functional-technological point of view.

## TUBULAR PRODUCTION

The artisan typology of our activity allows us to face every situation and every process with the utmost seriousness and availability, demonstrating the passion for our work.

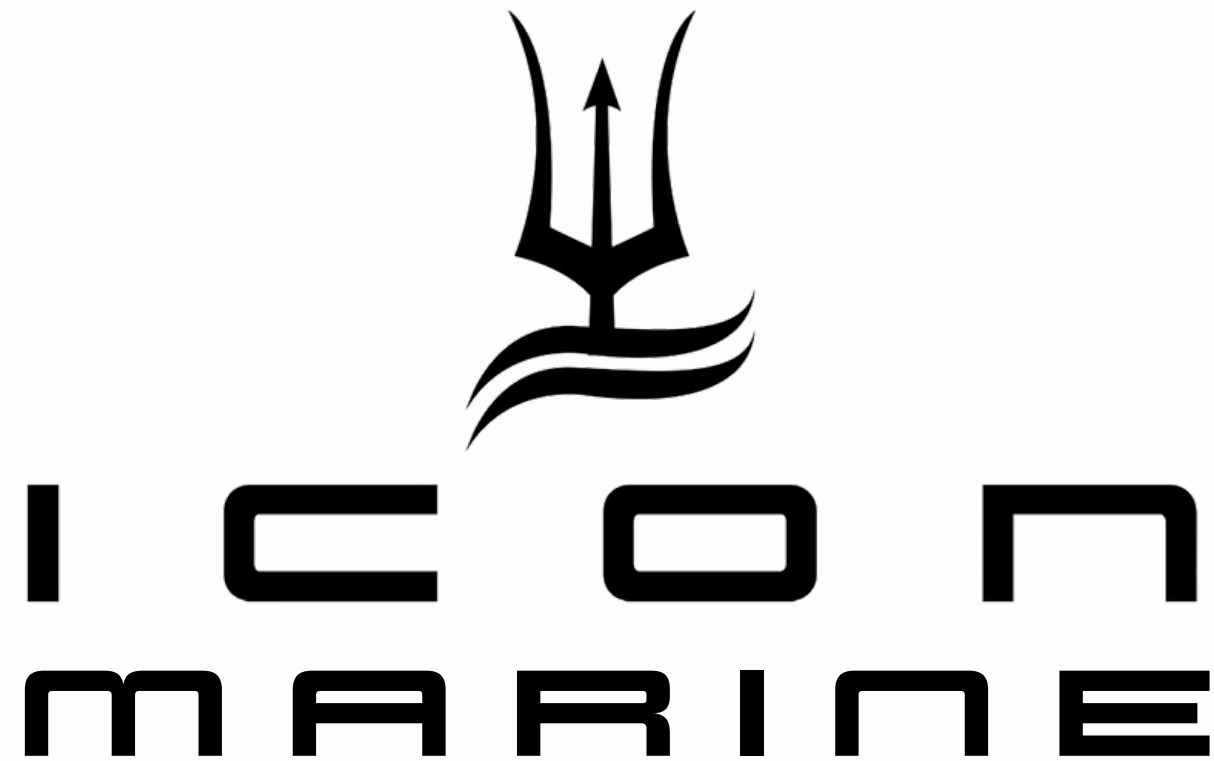

## FAIRING TREATMENT

The antifouling paint treatment on the hull serves to eliminate the microorganisms that develop on the hulls, shafts, propellers and more.
